MEMORANDUM FOR: Director of Security

FROM : Clifford D. May, Jr.
Director of Data Processing

Bob:

I want to thank you again for taking the time to speak to my senior staff officers in December. From the many favorable comments I have heard, I know that your talk was well received. It gave us all a better appreciation of the problems you face in the Office of Security. Your discussion of the Repolygraph Program was of particular interest to us. I believe those who have not been through it yet are now less apprehensive about it and can better appreciate the need for it. If I can repay the favor sometime in the future, please let me know.
